

Housman Court didn't win the Trophy, but they did win the Most Improved Garden Award! The transformation of the garden started in March with students, residents and team members rubbing down and painting the garden furniture in our Amica colours. On one side of the garden a tranquil area has been created with a water feature and an array of flowering plants, and on the other side an area for games and entertainment with a putting green, a coconut shy and a giant draughts board. Many of our ladies and gents helped either by lending a hand or offering advice. The sun shone on the day of judging and a chance to enjoy the garden whilst enjoying afternoon tea and a BBQ with friends and family. They also were able to share the day with the residents of Housman Park (who went on to win the Independent Living competition!) Congratulations to Housman Park.
