

Signature House completes a 5k fun run!

The team at Signature House have completed a 5k fun run to raise funds to purchase a magic table for their residents living with dementia.

The interactive table will help residents' cognitive abilities by stimulating the brain with senses by aiding in coordination, enabling positive memories and pure fun!

The Signature team enlisted the help of Craig from communitfit. Craig supports the home with weekly exercises for the residents after all ages benefit from exercise!

The home has now raised an amazing £6,782.61 and Amica Care Trust have contributed the rest of the funds and the table is on its way!

Kerry the Home's manager said:

"I cannot express enough thanks to our sponsors and to all those who took part in the run and fun day! Including staff and the local community, we feel deeply honoured to be supported in such a beneficial cause for our residents"

The Mayor of Dorchester attended to support the run showing the community support for the local care home.
